

Seafood Cans

Reliability You Can Count On

As a worldwide leader in metal packaging, Trivium provides canned seafood manufacturers with distinctive, high-quality, and 100% infinitely recyclable metal packaging through continuous R&D, scalable manufacturing, and rigorous testing, helping their brand stand out.

Our cans are available in steel and aluminium in a comprehensive range of shapes, diameters, heights, and internal and external coatings. Our offering includes large and single-serve cans with standard shapes and capacities ranging from 50 - 240ml.
