

# Ends & Components Solutions

# Turning Sustainability into Success

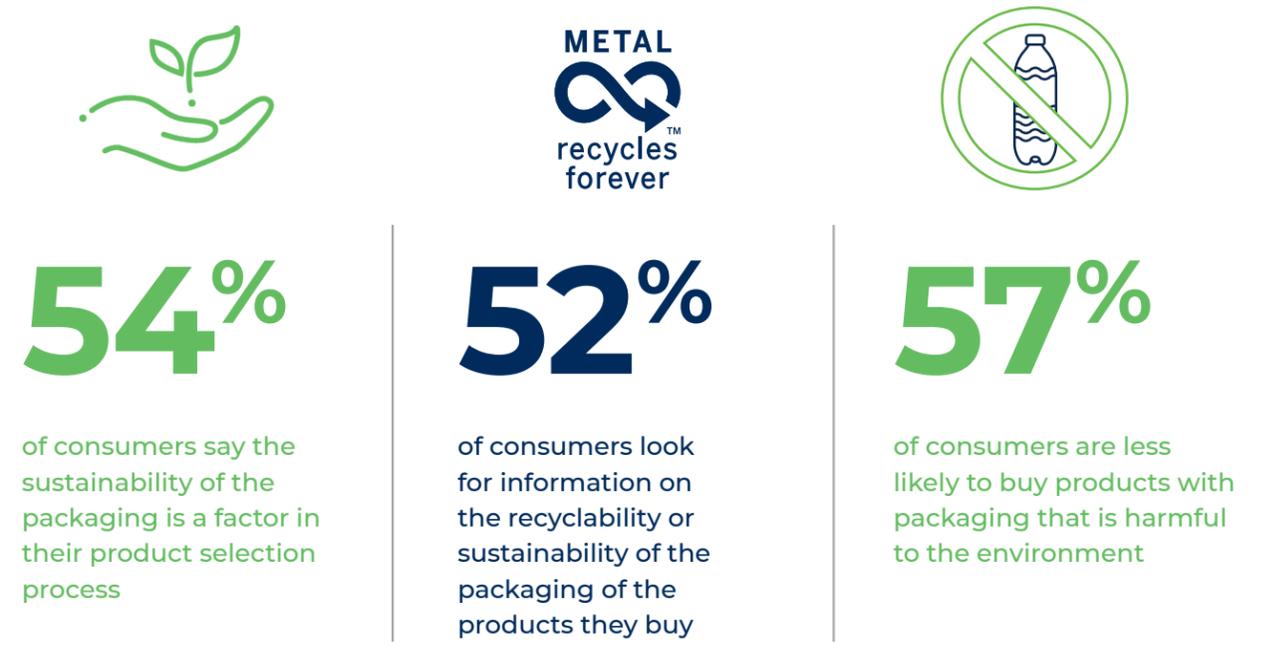

Our infinitely recyclable metal packaging solutions protect your product, promote your brand and preserve our planet.

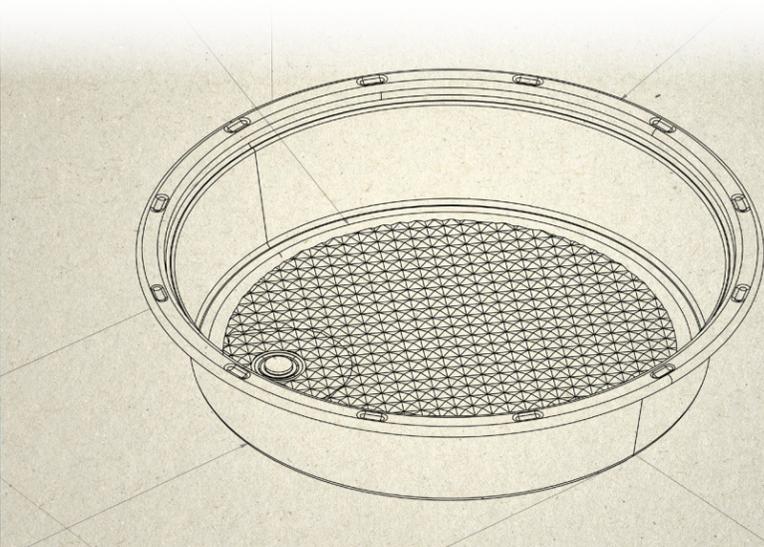

# A Growing Demand

The challenge for consumer brands has become clear:

It's no longer a question of whether brands should shift to more sustainable packaging, but how. The 2021 Buying Green Report conducted together with Boston Consulting Group shows that sustainability is at the top of consumers' lists when it comes to packaging.

## Our Products

Our components offer sustainable, high-quality, protective packaging. Nutrition components can be divided into:

- Peel Off ends
- Easy Open ends
- Scoop Out Easy Peel ends
- Bottom ends
- Printed sheets

All our ends are produced in BRC- certified factories. In these factories, we have several tools to track the quality of our products including cameras, Lean Six Sigma, and a strict hygiene standard. All components are sold globally and therefore we have several shipping locations in Europe and across the Americas to match the need of our customers.

## Peel Off Solutions for Dry Food

Along with our advanced Tab with Rivet® technology we produce peel off ends with flat tabs and ring pulls.

### Advantages of Tab with Rivet®

- Simple and safe to remove
- Opening force <30N
- No risk of cuts
- No risk of metal splinter in the product

Sizes (diameter)	Tab with Rivet®	Flat Tab	Ring Pull	D- shape possible
65 (211)		○ (no D)		Yes
73 (300)			○ (no D)	No
83 (307)		○ (no D)		No
99 (401)	○ (no D)		○ (D)	Yes
127 (502)	○ (no D)		○ (D)	Yes
153 (603)		○ (no D)	○ (D)	Yes
189 (710)			○ (D)	No

No D = No Dimples  
D = Dimples

## Scoop Out Easy Peel

This Scoop Out Easy Peel creates a cavity for a scoop or measuring device that keeps the scoop from laying buried within the powder. The can utilizes a snap cap for its closure and it is available for 99mm and 127mm cans.

### Key Advantages:

- A more hygienic solution
- Sustainable (less plastic)
- High premiumization
- Improved filling efficiency
- Cost-saving related to a high plastic cap
- Reduced powder fill volume

## Easy Openings for Wet Dairy

For wet dairy products, our solutions include full aperture and partial aperture options. These ends are ideal for cans containing condensed or evaporated milk.

Sizes (diameter)	Partial Aperture	Full Aperture
57.5	○	
63	○	
73	○	○

## Bottom Ends

Our bottom end offerings for dry food include plain ends and blue dot ends, available in several thicknesses to meet your needs.

### Plain Ends

Our plain ends offer a standard, safe and protective closure for your product.

### Blue Dot Ends

Blue Dot bottom ends help safeguard against counterfeit products by allowing brands to add data such as production date, expiration date, place of production, or other relevant data to the product, ensuring the customer receives a verified, safe product.

Sizes (diameter)	Plain	Blue Dot	Dimples
65	○		
73	○		
83	○		
99	○	●	Yes
127	○	●	Yes
153	○	●	Yes
189	○		Yes

## Graphics Capabilities

Trivium Packaging has state-of-the-art printing lines. We print in matte, gloss, and with spot effects using conventional and UV offset to ensure the best quality. Our graphics team is skilled in producing a variety of unique designs for our customer's cans.

### Endless Decoration Possibilities

# Endless Possibilities

Our innovations bring new possibilities to our customer's packaging options. Trivium produces 99mm and 127mm Tab with Rivet® peel off ends with a QR Code that is activated when read by the filler. Additionally, we offer embossing and a variety of printing options that vary by end type.

# A Sustainable Pursuit

## Three Roads, One Incredible Company

Trivium is Latin for three roads coming together. At Trivium, people, planet, and customers are the foundations of our success. These three roads drive our passion to fulfill our mission of reliably delivering high-quality, innovative, and sustainable packaging that exceeds expectations in protecting and promoting our partners' brands.

Manufacturing sustainable, infinitely recyclable packaging

Providing a corporate socially responsible, inspiring and safe working environment

A relentless focus on quality, service and sustainable innovation

# Leading the Way

As a global leader in metal packaging, we received two A-ratings from the CDP for climate change and water security in 2020. We are committed to providing sustainable packaging that drives exceptional value for both you and the planet. Our innovative solutions in metal packaging and our global network of award-winning design capabilities help ensure your products stand out at the point of sale and beyond.
